UNIVERSAL PRIMER

WATER BASED
Promotes Adhesion, Blocks Stains
Anti Fungal Protection
Prevents Rust Formation
Low Odour, Quick Drying, Non Toxic
Dries in 30 minutes, Recoat in 1 hour

Universal Primer is a **water-based primer-sealer for interior and exterior areas**, It offers low odour application, quick drying convenience and promotes adhesion on difficult surfaces. Universal Primer **effectively primes, seals and blocks stains for a wide variety of interior and exterior surfaces**. A 'bond coat' primer that's great for hard-to-stick surfaces, offering excellent adhesion with minimal preparation. Also **prevents rust formation** when applied over clean ferrous metal such as iron and steel. Universal Primer **contains a biocide** that protects the dried coating against fungal degradation, making it **ideal for high-humidity areas such as bathrooms and utility rooms**. It offers effective resistance to fungal degradation on the underside and surface of the primer film, prolonging the life of your paint finish.

Available at   **TOOLSTATION**

STAIN COVER +

SOLVENT BASED
Stain & Moisture Resistant
Adhesion Promoting
Minimal Preparation
Quick Drying, Non Toxic
Dries in 1 - 2 hours, Recoat in 2 - 4 hours

Stain Cover + is **an interior & exterior primer/sealer**, stain sealer and bonding coat that dries for over-coating in only two hours. On interior surfaces, Stain Cover + dries quickly and has excellent hiding power providing outstanding stain killing and adhesion promoting properties. Stains of all kinds are permanently sealed so topcoats are blemish free. Stain Cover + is **especially effective on nicotine and water stains**. New wood trim can be primed, sanded and top-coated the same day, saving time and money. On exterior surfaces, Stain Cover + has a unique formulation that delivers full penetration and flexibility on all surfaces, especially dimensionally unstable panels and trims, where few oil-based primers can succeed. Stain Cover + **resists cracking and peeling** and is compatible with most decorative top coats.

ULTIMATE PRIMER

SHELLAC/SOLVENT BASED
Promotes Adhesion
Blocks Stains and Odours
Quick Drying, Non Toxic
Dries in 20 minutes, Recoat in 1 hour

The **Ultimate Shellac-Based Primer & Stain Blocker**. Offering **excellent adhesion to glossy surfaces** - even glass. **Blocks stubborn and persistent stains**. The advanced shellac formula seals porous surfaces with excellent enamel holdout, even sealing bleeding knots and sap streaks. Suitable for **use on water stains, fungal degradation, nicotine, oil stains, marker pen stains** and more. Designed to **permanently block odours** (from smoke and fire damage to odours from pets and nicotine). The **dried film is non-toxic and hypo-allergenic** and may be used in areas where incidental contact with food items occur. Ideal for interior ceilings, walls, doors and general paintable surfaces. Including spot priming on wood, metal, trims and PVC.

OMNI WHITE

WATER BASED
Moisture Resistant, Anti Fungal Protection
Minimal Preparation, Adhesion Promoting
For Priming or Finishing Coats
Low Odour, Quick Drying, Non Toxic
Dries in 30 minutes, Recoat in 2 hours

Omni-White **contains a biocide** that protects the dried coating against fungal degradation. This paint is designed to **resist cracking, peeling and blistering** to avoid constant maintenance. Omni-White bonds to existing painted surfaces and promotes adhesion on a wide range of surfaces with minimal preparation. Omni-White also seals porous surfaces and is **ideal for use in areas of persistent high humidity**, frequent temperature changes and poor air circulation. Washable, scrubbable, stain and moisture resistant finish. Self-priming - sticks to surface with minimal preparation. **A fade resistant coating**. Water-based, easy to apply, low odour and quick drying. This product is a primer and a finish coat and therefore saves time and money with quick and easy application and long lasting protection.
