### Anti Corrosive QD Metal Primer

## PRODUCT DATA

### **Description:**

High build quick air-drying oxide primer for use on ferrous metals, provides good protection prior to over coating with most solvent based finishing products. Suitable for a wide variety of applications where speed and ease of application are required. Compatible with FLAG Hammer Finish and FLAG Smooth Metal paints.

#### Area of use:

Internal/External Industrial Structural Steel

**Substrates:** 

Metal

Packing:

1 Litre & 2.5 Litre

# **Physical Constants:**

Colour: Red & Grey

Finish: Matt

Volume solids: 60%

Theoretical spreading rate: 12 – 15 sq.metres per litre

Flash point: 23°C

Specific gravity: 1.45 - 1.50

Dry to touch: 15 minutes

Over-coating time: 4 hours

# **Application Details:**

Application method: Brush Conventional spray Airless spray

Thinner: Xylene (T10009) Cleaning of tools: Xylene (T10009)

**Surface condition:** The surface should be stable, firm, dry and free of dust, sand,

loose old paint, dirt, grease and oil.

Please refer to the Material Safety Data Sheet for further information. For additional guidance please contact your local Technical Sales Representative.

<sup>\*</sup>The theoretical spreading rate has been calculated for the stated volume solids and dry film thickness. A practical spreading rate will depend on the actual dry film thickness, the nature of the substrate, and the relevant consumption factor. The physical constants are subject to normal manufacturing tolerances.
